Promoted and protected our collective reputation and our culture. Designed and implemented the organizational and communication architecture of the company. <ul style="list-style-type: none"><li>• Grew revenues from combined entity over 60% with 11% margin over 2 years.</li><li>• Developed and implemented reorganization of company to achieve organizational growth and expansion of global headquarters and consolidation of European office.</li></ul> | Atlanta, GA |
| 2006 - 2012    | <b>Highgroove Studios, ScoutApp, Slingshot Hosting</b><br><b>CEO, Managing Member, Founder</b><br>Founder of hyper-specialized software development consulting firm. Grew company from freelance software development and technology consulting to preeminent agile consulting firm with entrepreneurial roots to sustainable business. Built culture of craftsmanship, organizational excellence and rapid improvement.  | Atlanta, GA |

- Developed sales and marketing programs, operational systems, financial acumen, and organizational and communication structures that achieved high growth, happy customers, and sustainable profitability resulting in a merger acquisition in 2012.
- Spun off two corollary businesses including a SaaS-based server monitoring and cloud hosting provider.

2005 - 2006      **U.S. Micro Corp.**      Atlanta, GA

**Application Developer**

Worked with COO and CEO to develop software applications to mobilize field technicians including a mobile application and web service platform to perform full life-cycle asset collection and disposition. Developed secure drive wipe technology and process for hard drive identification and remote data collection.

- Developed proprietary mobile application and technology solutions that resulted in a later multiple expansion acquisition to Arrow Corp.
- Decreased time on-site, improved accuracy, and increased operational efficiency and security of core business resulting in acquisition and retainment of key clients.

2004 - 2005      **Jacada Inc. (NASDAQ: JCDAF)**      Atlanta, GA

**Consultant, Instructor, and Software Developer, Professional Services**

Implemented the Jacada suite of software at companies to build modern web services on top of legacy architectures.

- Successful client projects included: Department of Justice in Nashville, TN, AAA in Philadelphia, and the Municipal Government of Durban, in South Africa.
- Developed and taught courses on Jacada platform to teams at Fortune 1000 companies.
- Integral part of the Professional Services team and a part of many turn-arounds for underperforming projects.
